**FORMER CIA DIRECTOR R. JAMES WOOLSEY JOINS
CLEAN ENERGY SYSTEMS, INC.
EXECUTIVE ADVISORY BOARD**

Rancho Cordova, CA: Clean Energy Systems, Inc. (CES) announced today the addition of former CIA Director R. James Woolsey to the company's Executive Advisory Board. Ambassador Woolsey joins a board consisting of world-renowned experts from industry, government, and the environmental arenas, and will assist the company as it focuses on full commercialization of its groundbreaking technology. CES is a privately held energy technology innovations firm, working to produce power without pollution. The company has developed technology allowing for the combustion of fossil or biomass fuels to produce electricity with zero emissions.

Ambassador Woolsey is currently a Vice President of Booz Allen Hamilton. He previously served as director of the Central Intelligence Agency from 1993-1995 and as a presidential appointee in two Democratic and two Republican administrations. Mr. Woolsey is currently the Chairman of the Board of Freedom House, the Chairman of the Advisory Boards of the Clean Fuels Foundation and the New Uses Council, and a Trustee of the Center for Strategic & International Studies. He also serves on the National Commission on Energy Policy.

"We are greatly looking forward to Jim's participation in our company and assistance as we bring this technology to the market," said CES President Brian C. Griffin. "We plan to have the first demonstration power plant using our technology operational this year, which will be an important step toward reducing global air pollution while increasing national energy security."

Other members of the Executive Advisory Board include:

- **David G. Assard** – Former President and CEO of Elliot Turbomachinery, a global leader in the design, manufacture, installation and service of turbomachinery, including air and gas compressors, steam turbines, power recovery turbines, bow thrusters and power generating equipment.
- **Roger Ballentine** – President of Green Strategies Inc., former Chairman of the White House Climate Change Task Force, and Deputy Assistant to President Clinton for Environmental Initiatives.
- **Vic Fazio** – Former congressman, served as Chairman of the Democratic Caucus, the third ranking position in the House of Representatives. Mr. Fazio serves on numerous boards including the California Institute, the U.S. Capitol Historical Society and Northrup Grumman Corporation.

- **Mark Fitzpatrick** – Former Executive Vice President and Chief Operating Officer of the AES Corporation, a leading independent power company with over \$34 billion in assets in 28 countries including 47,000MW of power capacity and 17 electricity distribution companies.
- **Manfred Loeb** – Chairman of Compagnie Immobiliere de Belgique, the largest real estate company in Belgium. Honorary Chairman of the Belgium-Hong Kong Society, and Honorary Board Member of Tractebel S.A., a Belgium-based energy company with more than 50,000MW of installed capacity.
- **David Rohy** – Chairman of the San Diego Regional Energy Office. Former Vice Chairman of the California Energy Commission.

CES has received technology development funding from the federal Department of Energy and is receiving continuing funding for development of a demonstration plant from the California Energy Commission. Initial power production is expected in the latter part of 2004.
